

Publications of Rafael A. Barrio

IN REFEREED JOURNALS

1. *Physica Status Solidi* **1**, 43, (1977), “Radiation Damage in Cu_2O ”, R.A. Barrio, D. Rios, G. Torres-Villaseñor.
2. *J. of Mat. Sci.* **13**, 2164 (1978), “The Mechanical Behaviour of Cuprous Oxide”, G. Torres-Villaseñor, R.A. Barrio, S. Victor Radcliffe.
3. “Observación de Dislocaciones en óxido Cuproso”, R.A. Barrio, G. Torres V., *Rev. Mex. de Física* **26**, No. 3, 371 (1980)
4. *Rev. Mex de Física* **27**, No.2, 143 (1981), “Magnetization of Cylindrical Hard Superconductors in Longitudinally Applied Magnetic Fields”, T. Akachi, R.A. Barrio.
5. *Rev. Mex. de Física* **28**, No. 2. 207 (1982), “Magnetization of Cylindrical Hard Superconductors in Perpendicularly Applied Magnetic Fields”, T. Akachi, R.A. Barrio.
6. *KINAM*, **4C**, 55 (1982), “Theory of Raman and Infrared Properties from Models of Amorphous Si”, R.J. Elliott, R.A. Barrio, M.F. Thorpe.
7. *J. Phys. C* **15**, 4493 (1983), “Vibrations of Defects in Amorphous Si”, R.A. Barrio, R.J. Elliott.
8. *J. Phys. C* **16**, 3425 (1983), “Inelastic Neutron Scattering from Hydrogen in Amorphous Silicon”, R.A. Barrio, R.J. Elliott, M.F. Thorpe.
9. *Phys. Rev. B* **28**, 3576 (1983), “Long Range Correlations in Bethe Lattices”, Félix Yndurain, R.A. Barrio, R.J. Elliott, M.F. Thorpe.
10. *KINAM* **5**, 337 (1983), “Some Mathematical Properties of the Bethe Lattice”, R.A. Barrio.
11. *J. Non-Cryst Solids*, **59**, 177 (1983), “Bond CPA for Hydrogenated Amorphous Silicon”, R.A. Barrio, L.E. Sansores, R.J. Elliott.
12. *Phys. Rev. Letters* **52**, (20), 1786 (1984), “Vibrational Bethe Lattice with Random Dihedral Angles”, R.A. Barrio, F.L. Galeener, E. Martínez.
13. *Phys. Rev. Letters* **53**, (25), 2429 (1984), “Vibrational Decoupling of Rings in Amorphous Solids”, F.L. Galeener, R.A. Barrio, E. Martínez, R.J. Elliott.
14. *Phys Rev. B* **31**, 7779 (1985), “Dihedral-Angle-Averaged Bethe Lattice for Vibrations in Glasses”, R.A. Barrio, F.L. Galeener, E. Martínez.
15. *J. Non-Cryst. Solids* **72**, 181 (1985), “A Hartree-Fock Approach to the Electronic Structure of Non-Periodic Systems”, R.A. Barrio, J. Tagüeña-Martínez, E. Martínez, F. Yndurain.
16. *J. Phys. C* **19**, 1113 (1986), “Modelling the Raman Spectrum of the Amorphous- Crystal Si System”, A.S. Carriço, R.J. Elliott, R.A. Barrio.
17. *Phys. Rev. B* **34**, 872 (1986), “Model of Electronic States at the $Si - SiO_2$ Interface”, A.S. Carriço, R.J. Elliott, R.A. Barrio.
18. *Phys. Rev. B* **34**, 879 (1986), “Effects of Electron-Electron Correlations on Defect and Interface States in Amorphous Si and SiO_2 Systems”, R.A. Barrio, R.J. Elliott, A.S. Carriço.

19. "Interfaces entre Si Cristalino y SiO_2 vítreo" R. Barrio, A.S. Carriço, R.J. Elliott, II Simposio Latinoamericano de Materiales Amorfos y Sistemas Desordenados, San Luis Potosí, México, KINAM **C8**, 7, (1986).
20. "Cálculo de las Densidades de Estados Electrónicos del $a - Si : H$ usando la Aproximación de Kittler-Falicov", J Tagüeña-Martínez, R.A. Barrio, F. de L. Castillo-Alvarado, II Simposio Latinoamericano de Materiales Amorfos y Sistemas Desordenados, San Luis Potosí, México, KINAM **C8**, 193, (1986).
21. "Espectro Raman en Silicio Microcristalino", A.S. Carriço, R.J. Elliott, R.A. Barrio, II Simposio Latinoamericano de Materiales Amorfos y Sistemas Desordenados, San Luis Potosí, México, KINAM **C8**, 121, (1986).
22. J. Phys. C **20**, 1679 (1987), "Hydrogenated Amorphous Silicon as a Binary Alloy", J. Tagüeña-Martínez, R.A. Barrio, F.L. Castillo-Alvarado.
23. Solid State Commun., **64**, No.2, 235 (1987), "Measurements on the New High-Tc Superconductor Nd-Ba-Cu Oxide System", R. Escudero, T. Akachi, R. Barrio L.E. Rendón-Díaz-Mirón, C. Vázquez, L. Baños, G. González, F. Estrada.
24. Phys. Rev. B **36**, 3910, (1987), "New Results from Electron Tunneling in the High-Tc Superconductor $Y - Ba - Cu - O$ ", R. Escudero, T. Akachi, R.A. Barrio, J. Tagüeña-Martínez.
25. Phys. Rev. B **36**, No.13, 7226 (1987), "Indication of High Local Fields in the $Y Ba_2Cu_{2.9375}Fe_{0.0625}O_d$ Superconductor by Mössbauer Spectroscopy", R. Gómez, S. Aburto, M.L. Marquina, M. Jiménez, V. Marquina, C. Quintanar, T. Akachi, R. Escudero, R.A. Barrio, D. Rios-Jara.
26. J. Non-Cryst. Solids **97&98**, 499 (1987), "Carbon in Silicon: A Cluster Calculation", L.E. Sansores, J. Tagüeña-Martínez, R.A. Barrio.
27. Rev. Mex. Física **34**, No.3, 407 (1987), "Mecanismos Microscopicos en Superconductores Ceramicos de 90K", R.A. Barrio, Chumin Wang, J. Tagüeña, Proc. Simposio sobre Superconductividad.
28. Solid State Commun., **65**, No.8, 775 (1988), "Variation of Tight-Binding Parameters near Surfaces", R.A. Barrio, M. del Castillo-Mussot.
29. J. Phys. C **21**, 1887 (1988), "Theoretical Study of the Vibrational Properties of Ultraheavily Doped Semiconductors", F.L. Castillo-Alvarado, G.S. Contreras-Puente, R.A. Barrio.
30. J.Phys.C **21**, 2565 (1988), "Degradation Effects in the High-Tc Superconductor $Gd_1Ba_2Cu_3O_{7-d}$ ", T.Akachi, R.Escudero, R.A.Barrio, D. Rios-Jara and L.Baños.
31. J.Phys.C **21**, 4999, (1988), "An EPR Study of $Y - Ba - Cu - O$ type ceramics in Superconducting and Non-Superconducting Phases", H.Murrieta, G.Aguilar, J. Ramírez, T.Akachi, R.A.Barrio, R.Escudero and J.Rubio,
32. Phys. Rev. Letters, **61**, 191 (1988), "Theory of the Raman Response in Fibonacci Superlattices", Chumin Wang and R.A. Barrio.
33. "Anomalous Behaviour af Mössbauer Parameters of a $YBa_2Cu_{2.675}Fe_{0.125}O_d$ Superconductor around 110K", R.Gómez, S.Aburto, V.Marquina, M.L.Marquina, M.Jiménez, C.Quintanar, T.Akachi, R.Escudero, R.A.Barrio and D.Rios-Jara, High Tc Superconductivity, Interlaken Suiza, Physica C **153 - 155**, 557(1988).

34. “Superconducting and Structural Properties of $Er_{1-x}R_xBa_2Cu_3O_y$ Compounds with $R = Yb, Ho, Gd, Eu, La, Y$ ”, L.Govea, R.Escudero, D.Rios-Jara, C.Piña, F.Morales, C.Wang and R.A.Barrio, High Tc Superconductivity, Interlaken Suiza, Physica C 153 – 155, 940 (1988).
35. J.Phys.: Condens. Matter **1**, 69, (1989), “Vibrational Properties of Amorphous $Si - N$ and $Ge - N$ Alloys”, R.A. Barrio, A.S. Carriço, F.C. Marques, J. Sanjurjo and I. Chambouleyron.
36. Modern Physics Letters B Vol.**3**, No.1, 73, (1989), “Tunneling Measurements in the Bi Superconductors”, R. Escudero, F. Morales, F. Estrada, and R. Barrio.
37. Solid State Commun. Vol.**71**, No. 12, 1107, (1989), “Electronic Structure of Substitutional Oxygen in Silicon”, I. Ortega-Blake, J. Tagüena-Martínez, R.A. Barrio, E. Martínez and F. Yndurain.
38. J. Appl. Phys. **66**, 2083 (1989), “Mössbauer Study of Hydrogenated Amorphous Germanium-Tin Thin Film Alloys”, I. Chambouleyron, F.C. Márques, P.H. Dionosio, I.J.R. Baumvol and R.A. Barrio.
39. J. Non-Cryst. Solids, **114**, 1558 (1989), “The Structure of Defects in Amorphous Ge-Sn Alloys”, I. Chambouleyron, F.C. Márques, I.J.R. Baumvol and R.A. Barrio.
40. J. Non-Cryst. Solids, **111**, 178 (1989), “A Cluster Calculation of Group IV Impurities in Si and Ge”, J. Tagüena-Martínez, R.A. Barrio, L.E. Sansores, I. Ortega-Blake and R. Les.
41. J. Phys.:Condens. Matter **1**, 8559 (1989), “Calculation of the Raman spectra in compositional and topologically disordered semiconductors”, F.L. Castillo-Alvarado, G.S. Contreras-Puente and R.A. Barrio.
42. Phys. Rev. Lett. **62**, No. 18, 2197 (1989), “Comment on the Theory of the Raman Response in Fibonacci Superlattices”, R.A. Barrio and Chumin Wang.
43. Solid State Commun. **74**, 103 (1990), “Model of the Electronic Structure of Germanium Tin Alloys”, R.A. Barrio, J. Tagüena-Martínez, F.L. Castillo-Alvarado and I. Chambouleyron.
44. Modern Physics Letters B, Vol. **3** No. 15, 1127 (1989), “Local Magnetic Fields in the Cu sites of $YBa_2Cu_3 - x Fe_xO_y$ detected by Mössbauer Spectroscopy”, R. Gómez, S. Aburto, V. Marquina, M.L. Marquina, C. Quintanar, M. Jiménez, R.A. Barrio, R. Escudero, D. Rios-Jara, and T. Akachi.
45. Phys. Rev. **B44**, 7313 (1991), “Structural and Vibrational Model for Vitreous Boron Oxide”, R.A. Barrio, F. L. Castillo-Alvarado and F.L. Galeener.
46. J. Non-Cryst. Solids **137&138**, 299 (1991), “Application of Nested CPA Theory to Hydrogenated Amorphous Silicon”, J. Avendaño, F.L. Castillo-Alvarado and R.A. Barrio.
47. “Model for the Vibrational Spectra of $B_2O_3 - xLi_2O$ ” R.A. Barrio, and F.L. Castillo Alvarado, Phys Rev. B 46, 3779 (1992).
48. “A possible mechanism to induce rhythmicity of neuronal firing in the suprachiasmatic nucleus”, Limei Zhang, R. Aguilar-Roblero and R.A. Barrio, Boletín de Estudios Biológicos, Vol. XL, No. 1-4, 31 (1992).
49. “Wave Behaviour in Anharmonic Penrose Lattices”, Chumin Wang, R., Fuentes, O. Navarro, R.A. Barrio and R.G. Barrera, J. Non-Cryst. Solids, **153&154**, 583 (1993).
50. “Some Physical Inferences from the Quasicrystalline Topology of Penrose Lattices”, R.A. Barrio and C. Wang, J. Non-Cryst. Solids, **153&154**, 375 (1993).

51. "Spectrum: An Educational Computer Game", John Lee, María Trigueros, Julia Tagüeña and Rafael Barrio, *Phys Educ.* **28**, 215 (1993).
52. "Regular Ring Dynamics in AX_2 Tetrahedral Glasses", F.L. Galeener, R.A. Barrio, E. Martínez and R.J. Elliott, *Phys. Rev. B* **48**, 15672-15689 (1993).
53. "Ionic Conduction in $(1-x)B_2O_3 + xLi_2O$ ", R.J. Elliott, L. Perondi, and R.A. Barrio, *J. Non-Cryst. Solids*, **68**, 167-178 (1994).
54. "Structural Properties of Alkali-Borate Glasses $(1-n)B_2O_3 + nLi_2O$ derived from a Theoretical Model", R.A. Barrio, J.P. Duruisseau and R. Kerner, *Phil. Mag.* **72**, (5), 535-550 (1995).
55. "Tracer Diffusion in Lattices with Double Occupancy of Sites", L.F. Perondi, R.J. Elliott, R.A. Barrio and K. Kaski, *Phys. Rev. B* **50**, 9868 (1994).
56. "Effects of frustration and localization of states in the Penrose lattice", Gerardo G. Naumis, Rafael A. Barrio, and Chumin Wang, *Phys Rev. B* **50**, 9834 (1994).
57. "Estudio de la Brecha de la Aleación Germanio-Estaño Hidrogenada", J. Avendaño- López, F.L. Castillo-Alvarado, y R.A. Barrio, *Rev. Mex. de Física*, **40** No.5, 750 (1994).
58. "Bethe lattice studies in glasses", Rafael A. Barrio, Gerardo G. Naumis, Chumin Wang, *J. Non-Cryst. Solids*, **182**, 22-26 (1995).
59. "Rhythmic firing patterns in the Suprachiasmatic Nucleus (SCN): The role of circuit interactions", Limei Zhang, R. Aguilar-Roblero, R.A. Barrio, and P.K. Maini, *International Journal of Bio-Medical Computing*, **38**, 23-31 (1995).
60. "Hydrodynamic five-fold Diffusion-driven Instabilities", *Nonlinear Analysis*, **30**, No. 6, 3339 (1996).
61. "Hierarchically Coupled Oscillators producing Robust Circadian Rhythms", R.A. Barrio, L. Zhang, and P.K. Maini, *Bull. Math. Biol.* **59/3**, 517-532 (1997)
62. "Five-Fold Patterns on the Surface of a Liquid", R.A. Barrio, J.L. Aragón, C. Varea, M. Torres, I. Jiménez, F. Espinoza de los Monteros, *Nonlinear Analysis*, **30**, No.6 (1997).
63. "On confined Turing patterns in growing systems", C. Varea, J.L. Aragón, R.A. Barrio, *Phys. Rev. E*, **56/1**, 1250-1253 (1997).
64. "Robust symmetric patterns in the Faraday experiment", R.A. Barrio, J.L. Aragón, C. Varea, M. Torres, I. Jiménez, F. Espinoza de los Monteros, *Phys. Rev. E*, **56/4**, 4222-4230 (1997).
65. "Evaluation of the concentration of Boroxol rings in vitreous B_2O_3 by the stochastic matrix method", R.A. Barrio, R. Kerner, M. Micolaut and G.G. Naumis, *J. Phys.: Condens. Matter* **9**, 9219-9234, (1997).
66. "Non-periodic Hexagonal Square-Triangle Tilings", R. Paredes, J.L. Aragón and R.A. Barrio, *Phys. Rev. B* **58**, 11990 (1998).
67. "Coherency of Phason Dynamics in Fibonacci Chains", G.G. Naumis, Chumin Wang, M.F. Thorpe, R.A. Barrio, *Phys. Rev. B* **59**, 11315 (1999).
68. "A Two-Dimensional Numerical Study of Spatial Pattern Formation in Interacting Turing Systems", R. A. Barrio, C. Varea, and J.L. Aragón, and Philip K. Maini, *Bull. Math. Biol.* **61**, 483 (1999).

69. "Spatial Patterning in Modified Turing Systems: Application to Pigmentation Patterns on Marine Fish", J.L. Aragón, C. Varea, and R.A. Barrio, and Philip K. Maini, *FORMA* **13**, 213(1999).
70. "Crecimiento Estocástico de Sólidos", R. Paredes, J.L. Aragón, R.A. Barrio, (*Re. Mex. Física*, **45/1**, 21 (1999).
71. "Boroxol Rings and the Stochastic Matriz Method", G.G. Naumis, R. Kerner, M. Micoulaut, and R.A. Barrio, (*Re. Mex. Física*, **44/3**, 80 (1998).
72. "Turing Patterns on a sphere", C. Varea, J.L. Aragón and R.A. Barrio, *Phys. Rev.* **E 60** (1999).
73. "Formación de Patrones en Sistemas Biológicos", Carmen Varea, José Luis Aragón, Rafael A. Barrio, *TIP Revista Especializada en Ciencias Químico-Biológicas* **2(2)**: 59-68 (1999).
74. "Sobre el papel de los sistemas de reacción-difusión (RD) como un mecanismo de generación de patrones en sistemas biológicos", L. Olivares-Quiroz y R.A. Barrio, *TIP, revista especializada en Ciencias Químico-Biológicas* **3(1)**:5-13 (2000).
75. "Self-consistent cluster CPA methods and the nested CPA theory", C.I. Ventura and R.A. Barrio, *Physica B*, **281**, 255 (2000).
76. "Models of Disorder", R.A. Barrio and G.G. Naumis, *Glass Physics and Chemistry* **26** No. 4, 325 (2000) .
77. "Frustration effects on the electronic density of states of a random binary alloy", G.G. Naumis, Ch. Wang, and R.A. Barrio, *Phys. Rev.* **B65** 134203 (2002).
78. "Turing patterns with pentagonal symmetry", J.L. Aragón, M. Torres, D. Gil, R.A. Barrio, P.K. Maini, *Phys Rev* **E 65**, 051913 (2002).
79. "Size dependent symmetry breaking in models for morphogenesis", R.A. Barrio, P.K. Maini, J.L. Aragón and M. Torres, *Physica D* 2920 (2002).
80. "A new dimension to Turing Patterns", T. Leppänen, M. Karttunen, K. Kaski, R.A. Barrio, and L. Zhang, *Physica D* 168-169, 35 (2002).
81. "Self-consistent method for glass formation", R. Paredes, Gerardo G. Naumis, R.A. Barrio, and R. Kerner, (enviado a *Phys. Rev. B*).
82. "Growth Dynamics in Silica-based Glasses.", R. Aldrovandi, R.A. Barrio, Ph. Jarry, and R. Kerner, (enviado a *Phys. Rev. B*).

IN REFEREED CONFERENCE PROCEEDINGS

83. "Phonons in Amorphous Solids", R.A. Barrio, *Memorias de la 2a. Reunión de Invierno de Bajas Temperaturas, Cocoyoc* (1981).
84. "Dynamical Probes in Amorphous Silicon", R.A. Barrio, *Memorias de la 4a. Reunión de Invierno de Bajas Temperaturas, México* (1983).
85. "Theoretical Model to the Raman Spectrum of B_2O_3 ", R.A. Barrio, F.L. Galeener, *Proc. I Simposio de Física dos Sistemas Amorfofos, Niteroi, Brasil Vol.II*, 381 (1985).

86. "Self Consistent Solution for Electrons in a-Si", R.A. Barrio, L.E. Sansores, J. Tagüeña-Martínez, Félix Yndurain, E. Martínez, Proc. 17th Int Conf. on the Physics of Semiconductors, San Francisco Calif. (Springer-Verlag, Berlin, Ed, J.D. Chadi, W.A. Harrison) (1985).
87. "Self-Consistent Approach to the Electronic Problem in Disordered Solids" R.A. Barrio, J. Tagüeña-Martínez, F. Yndurain, E. Martínez, Proc. I Simposio Latinoamericano de Física dos Sistemas Amorfofos, Niteroi, Brasil, Vol. II, 308 (1985).
88. "Cálculos Moleculares en un Modelo Autoconsistente de Silicio Amorfo", R.A. Barrio, J. Tagüeña-Martínez, I. Ortega-Blake, 9o. Simposio Latinoamericano de Física del Estado Sólido, Mar del Plata, Argentina, (1985).
89. "Teoría Electrónica usando el Método de Cúmulos en la Red de Bethe para Sistemas Desordenados", F. de L. Castillo-Alvarado, R.A. Barrio, J. Tagüeña-Martínez, Proc. 9o. Simposio Latinoamericano de Física del Estado Sólido, Mar del Plata, Argentina (1985).
90. "Theoretical Treatment of the Amorphous Silicon-Hydrogen Alloy", R.A. Barrio, J. Tagüeña, J. Avendaño, Proc. III Scola Brasileira de Física dos Semicondutores, Campinas, Brasil (1987).
91. "Theoretical Methods for Disordered Solids", (invited talk) R.A. Barrio, Proc. III Scola Brasileira de Física dos Semicondutores, Campinas, Brasil, (1987).
92. "Impurities in Silicon", J. Tagüeña-Martínez, R.A. Barrio, I. Ortega-Blake, Proc. III Scola Brasileira de Física dos Semicondutores, Campinas Brasil (1987).
93. "Impurities in Amorphous Solids", R.A. Barrio, J. Tagüeña, I. Ortega-Blake, Proc. Int. Workshop on Materials Science, Energy and Development, Jamaica (1987)
94. "Properties of Electrons near Interfaces", R.A. Barrio, Proc. 8a. Reunión de Invierno de Bajas Temperaturas, Cuernavaca (1987).
95. "Evidence of High Energy Excitations in High Tc Superconductors", R. Escudero, T. Akachi, R.A. Barrio, J. Tagüeña-Martínez, Proc. Meeting on New Mechanisms of Superconductivity, "Novel Superconductivity" Berkeley Calif., 1011, (1987).
96. "Magnetic Transitions in High Tc Superconductors", R.A. Barrio, C. Wang, J. Tagüeña-Martínez, D. Rios-Jara, T. Akachi, R. Escudero, Proc. Fall Meeting MRS, Boston, Vol. 99, 801 (1988).
97. "X - Ray Study of Superconducting $Y_1Ba_2Cu_3 - x Fe_xO_y$ Compounds", G. González, D. Rios-Jara, T. Akachi, R.A. Barrio, L. Baños and R. Escudero, Mat. Res. Soc. Symp. Proc. Vol. 99, 899, (1988).
98. "Some Remarks on EPR Studies of $Y - Ba - Cu - O$ ", G. Aguilar, H. Murrieta, J. Ramírez, T. Akachi R.A. Barrio and R. Escudero, Proc. IX Winter Meeting on Low Temperature Physics, World Publ., Vol. 5, 264 (1988).
99. "Evidence of Structural Changes near Tc in a $YBa_2Cu_3 - x O_y$ Superconductor", R. Gómez, S. Aburto, V. Marquina M.L. Marquina, M. Jiménez, C. Quintanar, T. Akachi, R. Escudero, R.A. Barrio and D. Rios-Jara. Proc. IX Winter Meeting on Low Temp. Physics, World Publ. Vol. 5, 251 (1988).
100. "Antiferromagnetic Interactions in High-Tc Superconductors", R.A. Barrio, (invited talk), Proc. IX Winter Meeting on Low Temp. Physics, World Publ. Vol. 5, 206 (1988).

101. "The orthorhombic to tetragonal transition in the $Er_{1-x}La_xBa_2Cu_3O_y$ System", L.Govea, R.Escudero. D.Rios-Jara, C.Piña, C.Wang and R.A.Barrio, Proc IX Winter Meeting on Low Temp. Phys., World Publ. Vol.5, 237 (1988).
102. "Analysis of Low Velocity Mössbauer Spectra of a $YBa_2(Cu_{1.9583}Fe_{0.0417})_3O_d$ Superconductor as a function of Temperature", R.W. Gómez, S. Aburto, V. Marquina, M.J. Jiménez C. Quintanar, T. Akachi, R. Escudero, R.A. Barrio and D. Rios-Jara, Proc. First Latinamerican Conference on High Temperature Superconductors, Rio de Janeiro, Brazil, World Publ.Vol.9, 315, (1988).
103. "Electronic Behaviour in $Cu - O$ Planes: Consequences to Superconductivity" R.A. Barrio, J.A. Cogordan, J. Tagüe a and I. Ortega-Blake, (invited talk) Proc. First Latinamerican Conference on High Tc Superconductors, Rio de Janeiro, Brazil, World. Publ. Vol.9, 211, (1988).
104. "Electronic Properties of Low Dimensional Systems", R.A. Barrio, Proc. International Workshop on Condensed Matter Theories, Taxco, Ed. J. Keller and C. de Teresa, Springer Verlag 1989).
105. "Raman Studies in Heavily Doped Semiconductors", *F.L. Castillo-Alvarado*, G.S. Contreras-Puente and R.A. Barrio, Proc. Sir Roger Elliott Symposium, Oxford Univ. Press (1989).
106. "Raman Scattering from Multilayers", R.A. Barrio, Proc. Sir Roger Elliott Symposium, Oxford Univ. Press, (1989).
107. "Study of Tin in Amorphous Germanium", J. Tagüeña-Martínez, R.A. Barrio and I. Chambouleyron, Proc. Sir Roger Elliott Symposium, Oxford Univ. Press, (1989).
108. "Electron Localization in Large Fibonacci Chains", R.A. Barrio and Chumin Wang, Proc. Third Int. Conf. on Quasicrystals and Incommensurate Phases in Condensed Matter, VistaHermosa, M. José Yacamán, D. Romeu. V. Castaño and A. Gómez eds. World Scientific (1989) p 448.
109. "Magnetic Interactions in One Dimensional Quasicrystals", R.A. Barrio and Chumin Wang, Proc. Second Int. Workshop on the Magnetic Properties of Low Dimensional Systems, San Luis Potosi, L.M. Falicov, F. Mejía-Lira and J.L. Morán-López, eds., Springer Proceedings in Physics 50 (1990). p. 194.
110. "The Electronic Band Structure of Penrose Lattices", Chumin Wang y R.A. Barrio, 6o.Simposio Latinoamericano de Física de Superficies, F.A. Ponce and M. Cardona eds., Springer Proceedings in Physics 62 (1991), p.67.
111. "Disorder in Solids", R.A. Barrio, First Symposium Mexico-USA, The Frontiers in Materials Science, Ixtapa, Gro. sept. (1991).
112. "Observation of Wave Localization in Penrose Lattices", Chumin Wang, O. Navarro and R.A. Barrio, Int. Symp. on the Physics and Chemistry of Finite Systems: From Clusters to Crystals, Richmond Va., Ed. P. Jena, S.N. Khanna and B.K. Rao, Kluwer Academic Publishers, Boston, London (1991), Vol.II, p.1013.
113. "Simulación Analógica de los Efectos Anarmónicos en una Red Quasiperiódica Bidimensional", R. Fuentes, O. Navarro, Ch. Wang, R.A. Barrio and R.G. Barrera, Congreso de la Soc. Mex. de Sup. y Vacío, Sn. Luis Potosí, Sept 4 (1991).
114. "CPA anidado para Cúmulos Desordenados", J. Avendaño, R.A. Barrio y FL. Castillo- Alvarado, Congreso de la Soc. Mex. de Sup. y Vacío, Sn. Luis Potosí, Sept 4 (1991).

115. “Nested CPA for Semiconductors” R.A. Barrio, F.L. Castillo-Alvarado and J. Avendaño, Proc. 21st. Int Conf. Phys. Semicond. Beijing, China, ed. Ping Jiang and Hou-Zhi Zheng, World Scientific (1993)p.97.
116. “Statistics of Rings in Borate Glasses”, R.A. Barrio and R. Kerner, Proc. XXI Winter Meeting on Statistical Physics, ed. M. López de Haro and C. Varea, World Scientific (1993).
117. “Quasicrystals, Structure and Excitations”, R.A. Barrio and Chumin Wang, in Modern Topics of Condensed Matter, Proc. of the XIII Winter Meeting in Low Temperature Physics, ed. J. L. Heiras and T. Akachi, World Scientific, (Singapore 1994) p. 115.
118. “Electron Gaps and frustration in 2D Quasicrystals”, G.G. Naumis, R.A. Barrio, and Chumin Wang, Proc. of the 5th Int. Conf. on Quasicrystals, ed. Christian Janot and Remy Mosseri, World Scientific, (Singapore 1995) p. 431.
119. “Phason-Neutron Coupling in Quasicrystals”, G.G. Naumis, R.A. Barrio, Ch. Wang, M.F. Thorpe, Proc. Int. Conf. on Aperiodic Crystals, Alpe d’ Huez, Francia, agosto 1997. (invited talk),
120. “ Pattern formation on the skin of growing fish”, R.A. Barrio, XXX Congr. Nal. de la Soc. Matem. Mex. Aguascalientes, sept. 1997. (invited talk)
121. “Gaps in the Spectra of Nonperiodic Systems”, R.A. Barrio, G.G. Naumis, and Chumin Wang, in “Current Problems in Condensed Matter”, Ed. J.L. Morán López, Plenum Press (1998) p.283.
122. “Patterns from interacting Turing systems in two dimensions”, R.A. Barrio, Memorias del Taller sobre Formación de Patrones y Morfogénesis, UNAM (1998).
123. “ Sistemas de Turing como un posible mecanismo inductivo para la formación de patrones neurales”, R.A. Barrio y Limei Zhang,. Proc. IV Congreso Nacional de Biología del Desarrollo, Boletín de Educación Bioquímica, Vol. 18, 1999, 32.
124. “Self-Consistent Cluster CPA Methods and the Nested CPA Theory”, C.I. Ventura, R.A. Barrio, LI-st Yamada Conference on Strongly Correlated Electron Systems, Nagano, Japan, August 24-28 (1999).
125. “Properties of the Thue-Morse Chain”, M. Noguez and R.A. Barrio, in “Physics of Low Dimensional Systems”, Ed. J.L. Morán-López, Kluwer Academic/Plenum Pub. N.Y. 2001, pags. 223-232.

IN CONFERENCE PROCEEDINGS

1. “Semiconductores Amorfos”, R.A. Barrio, L.E. Sansores, J. Tagüeña-Martínez, Proc. III Simposio Nacional de Física Electrónica, Puebla (1983).
2. “Modelo Gaussiano para un Semiconductor Amorfo”, G. García-Calderón, J. Tagüeña- Martínez, L.E. Sansores, R.A. Barrio, Proc. Simposio Latinoamericano de Física del Estado Sólido, Oaxtepec, (1983).
3. “Cálculo de las Densidades Electrónicas del Silicio Amorfo usando la Aproximación de Bethe en el Esquema de Aleación Binaria”, F. de L. Castillo-Alvarado, R.A. Barrio, J. Tagüeña-Martínez, Memorias de la IX Reunión Nacional de Energía Solar, Mérida Yucatán, Vol. E, 62, (1985).,

4. "Trends in Materials", R.A. Barrio,(Comments) Proc. 7a. Reunión de Invierno de Bajas Temperaturas, Cuernavaca (1986).
5. "Teoría sobre el comienzo de la Oxidación del Silicio", J. Tagüeña-Martínez, R.A. Barrio, I. Ortega-Blake, Proc. Simposio sobre la Química del Silicio, Guanajuato (1986).
6. "Nuevos Mecanismos para Superconductividad", R.A.Barrio, Rev. Diógenes (1988).
7. "First Technical Progress Report", Structural and Transport Properties of Superionic Conducting Borate Glasses, Communauté Economique Européenne, Contract No. CII-CT90-0864 (DSCN). (1992).
8. "Second Technical Progress Report", Structural and Transport Properties of Superionic Conducting Borate Glasses, Communauté Economique Européenne, Contract No. CII-CT90-0864 (DSCN). (1993).
9. "Third Technical Progress Report", Structural and Transport Properties of Superionic Conducting Borate Glasses, Communauté Economique Européenne, Contract No. CII-CT90-0864 (DSCN). (1994).

BOOKS AND BOOK CHAPTERS

1. "Formación de Imágenes en el Microscopio Electrónico", R.A. Barrio, U.N.A.M., Cuadernos del IIM, 431, (1982).
2. Capítulo "Clifford Analysis, Riemannian Geometry and the Electromagnetic Field" J. Lawrynowicz, J. Avendaño-López, F.L. Castillo-Alvarado, R.A. Barrio and A.Urbaniak- Kucharczyk, en "Essays on the Formal Aspects of Electromagnetic Theory", ed. Akhlesh Lakhtakia (World Scientific, Singapore, 1993). pp. 533-558.
3. Capítulo "Superconductividad", R.A. Barrio, en "Conviviendo con la Tecnología", ed. J. Flores (SEP en prensa).
4. Capítulo "Disorder in Solids", R.A. Barrio, en "Dynamics of nonlinear and Disordered Systems", ed. G. Martínez Mecker and T. Seligman (World Scientific, Singapore, 1995). pp. 169-183.
5. "Atomic Diffusion in Disordered Materials, Theory and Applications", R.J. Elliott, M. Balkanski, R.A. Barrio, R. Kerner, and M. Massot, World Scientific, Singapore (1998).
6. "Revisitando el Experimento de Faraday", R.A. Barrio en el Libro en Honor de Angel Dacal, Fondo de Cultura Económica, México (2000).
7. "Los Nuevos Materiales", R.A. Barrio, Libro de texto sobre Tecnología I, Universidad Tecnológica de México, (1999). ISBN 970-21-0043-7.
8. "Stochastic Description of Solid Formation", R.A. Barrio, Lecture Notes Volume, World Scientific, (in preparation).

POPULAR SCIENCE ACTIVITIES

1. “Silicio Amorfo”, R.A. Barrio, *Información Científica y Tecnológica* V 441, No. 63, 37, (1982)
2. “El Método del Campo Autoconsistente”, por L. Brillouin, Translation by R.A. Barrio, U.N.A.M., (1979).
3. “Sistema Motogenerador Didáctico”, R.A. Barrio, CUCC UNAM, (1990).
4. “Desorden Microscópico”, Rafael Barrio, *Ciencia y Desarrollo*, V XXI, 35-41 CONACyT (1995).
5. “Superconductividad” (primera parte), Rafael Barrio, *Ciencia y Desarrollo*, XXI-122 84-88 CONACyT (1995).
6. “Superconductividad” (segunda parte), Rafael Barrio, *Ciencia y Desarrollo* CONACyT (1995).
7. “Superconductividad” (tercera parte), Rafael Barrio, *Ciencia y Desarrollo* CONACyT (1995).
8. “Superconductividad” (cuarta parte), Rafael Barrio, *Ciencia y Desarrollo* CONACyT (1995).
9. “ Darwin, Faraday y los seres vivos”, one hour TV program de una hora *ILCE* (Mxico, D.F.). Octubre de 1998.
10. “Diseño y construcción de un aparato para demostrar el experimento de Faraday bajo régimen no-lineal”. R.A. Barrio, J.L. Vázquez y J. de la Herrán. (exhibited in UNIVERSUM and presented in the Congreso Internacional de Instrumentación Científica (1998). (prize winner in the 3rd. International Instrumentation Competition).
11. R.A. Barrio, “Una Computadora por dentro”, Notes of a demonstration for primary school students, Published by Somedicyt.
